

TIMETABLE, Saturday, June 12, 2010

TIMETABLE, Saturday, June 12, 2010

Time	Plenary (Hotel)	Room 2 (Spektrum)	Room 3 (Spektrum)
7.30			
7.45			
8.00	ICL 13: Current Concepts on the Treatment of Medial Knee Injuries	ICL 15: Current challenges in cartilage repair	ICL 18: Laxity measurements - correlation between laxity and knee function; clinical implications and future consideration
8.15			
8.30			
8.45			
8.50	Lecture by Marc Safran		
9.00	Awards presentation		
9.15	Presentation ESSKA 2012		
9.30	Special Guest Lecture by Rocky Tuan: Stem cells for cartilage repair		
9.45			
10.00	Coffee break	Coffee break	
10.15			
10.30	ACL register: What is new and how can it be used?	The painful TKA	Achilles tendon study group Achilles Tendinopathy
10.45			
10.50			
11.00			
11.10	Osteoarthritis in the active 40 +, options and expectations	Degenerative meniscus tear - to operate or not	
11.15			
11.20			
11.30			
11.40	Comparative kinematics between the native knee and total knee arthroplasty		
11.45	Special concerns in ACL repair in high level athletes	Management of Isolated Patello-Femoral Arthrosis	ESSKA SFA: The lateral meniscus revisited
11.50			
12.00			
12.10			
12.15			
12.20			
12.30			
12.40			
12.45			
12.50			
13.00	Closing Ceremony		
13.15			
13.30			
13.45			
14.00			

Room 4 (Spektrum)	Room 5 (Spektrum)	Room 6 (Hotel)	Room 7 / Base I Holmenkollen / Oslofjord	Time
				7.30
				7.45
ICL 16: Improving accuracy in TKA	ICL 17: How to design and include patients in your clinical study	ICL 14: Rotator cuff repair		8.00
				8.15
				8.30
				8.45
				8.50
				9.00
				9.15
				9.30
				9.45
	Coffee break	Coffee break		10.00
				10.15
ESSKA AGA: Patella		Formula 1 medicine		10.30
		Postarthroscopic Osteonecrosis: fact or fiction		10.45
		Treatment of cartilage lesions with mesenchymal stem cells		11.00
		Postero-lateral surgical technique		11.15
		Bone – patellar Tendon – Bone Harvesting: Mini Invasive Technique		11.30
		Surgical approach to anterior- inferior shoulder instability		11.45
Hype or reality: The use of autologous platelet rich plasma growth factors in musculo-skeletal injuries		U-45 Committee: Rotator Cuff Repair and Bio-technology		11.50
Patello-femoral imaging			12.00	
Neovascularity in tendons: a red herring?			12.10	
Is it possible to prevent osteo- arthritis after an ACL injury?			12.15	
				12.20
				12.30
				12.40
				12.45
				12.50
				13.00
				13.15
				13.30
				13.45
				14.00
